

Sound

An Introduction

Adding life to your layout

Larry's Page

Simple Pendulum

$$\omega = \sqrt{\frac{g}{L}}$$

$$\theta = \theta_{\max} \cos(\omega t - \phi)$$

Traveling Waves

Longitudinal, Transverse

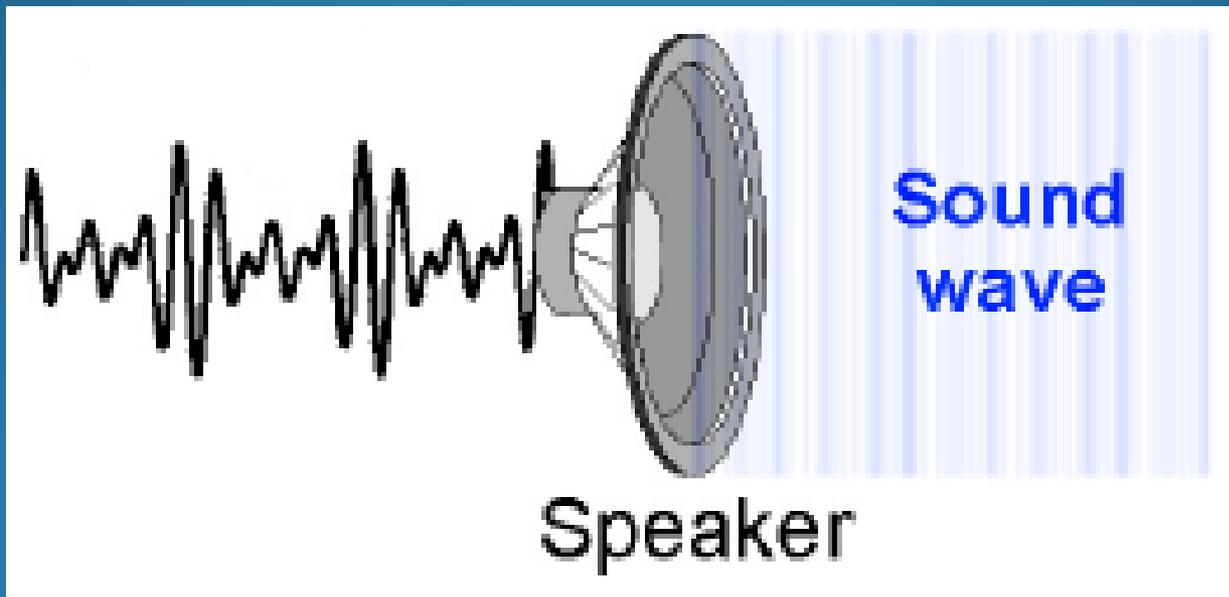

Sinusoidal wave

$$y = A \cos \left[2\pi \left(\frac{x}{\lambda} - ft \right) - \phi \right]$$

Speed, frequency, wavelength

$$v = f\lambda$$

What were looking for:

The simplest way to add sound

Buy a sound card from:

Dallee Electronics

ITTC

Ram Track

You will also need:

12 VDC power supply

8 Ohm speaker < 4 inches

If you want more than a
30 second sound byte
then the first step in a
sound project is to find
the sounds you like

I start with:

Scale Magic CD Soundtracks | [Scale Magic™ CD Soundtracks] [Scale Magic™ Dream Player] [PRICOM Design products]
[RailRoadies™ Scale Sound Services] [Creative FX Book]

52 individual R-T-R model railroad scenes... and counting!
Each CD contains over an hour of continuous, hand made 'scale sound scenery', scratch built for a specific scale model railroad scene.

Sounds HUGE no matter how quietly you play it back!
Sounds REAL at any scale volume!
Three dimensional imaging appears real from every angle!

Hearing is believing, click on any scene title below, TURN IT DOWN!, and listen for yourself...

CD's are available in the following scenes:

Shopping list of sounds

- 1) Forge – steam era – bellows
- 2) Hammering metal - anvil
- 3) Hissing of hot metal in water
- 4) Maybe the sound of shoeing a horse
- 5) Maybe people and animal sounds

How to trap and record

I use my computer

New terms: **Line level** is the specified strength of an audio signal used to transmit analog sound between audio components such as CD and DVD players, television sets, audio amplifiers, and mixing consoles. This is an industry standard. See also:

Line-in

Line-out

How to trap and record

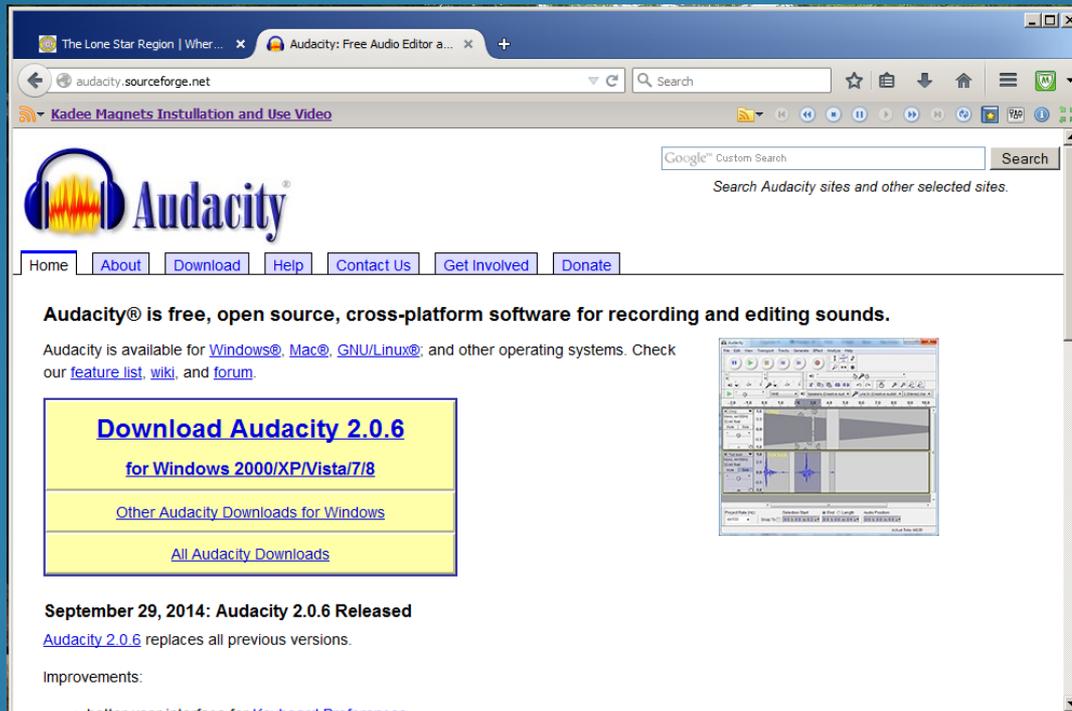

I use my computer

A jumper set of stereo 3.5mm jacks will allow you to route the output sound (Line-out) back into your computer (Line-in) for capture and processing.

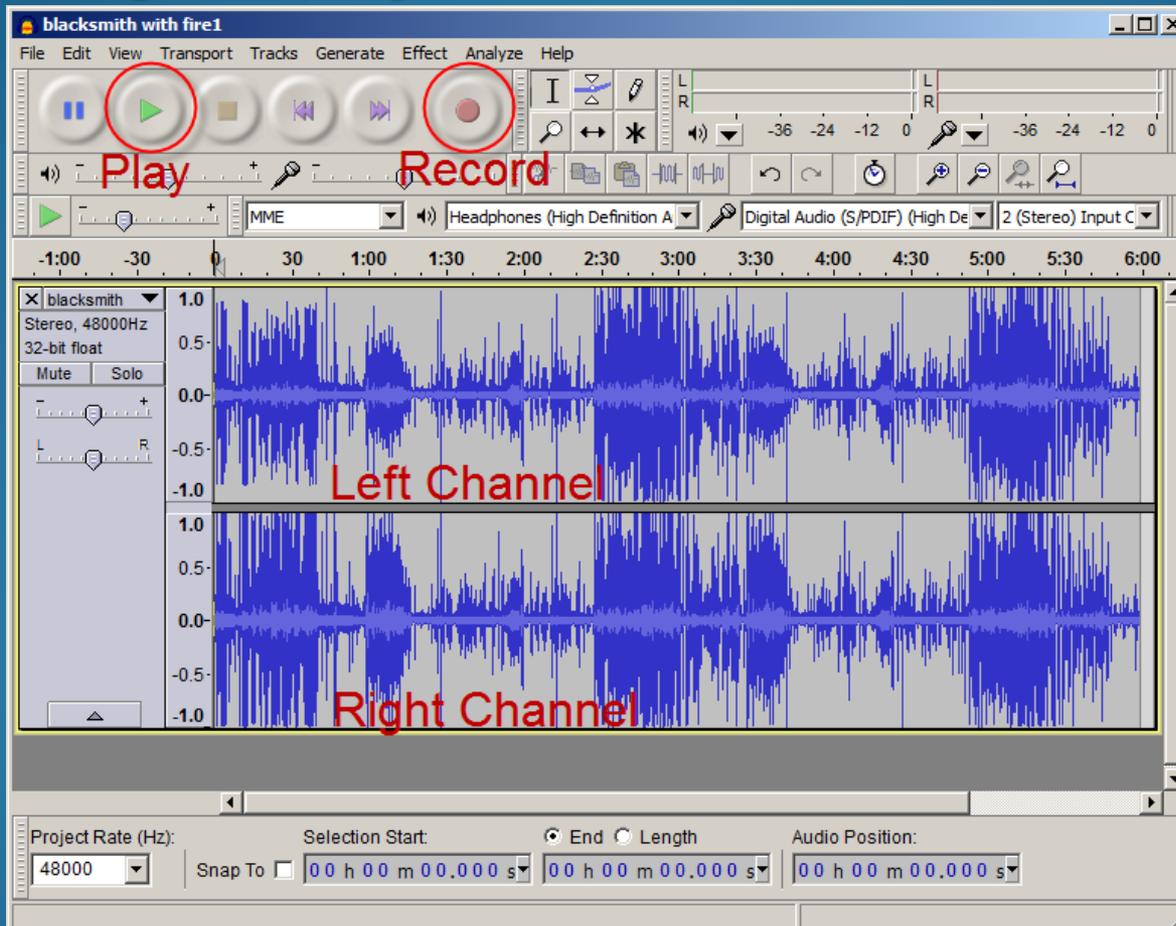

How to trap and record I use my computer

You need some software to capture the sound files. I use [Audacity](#). It's free, and it has a lot of mixing capabilities.

The screenshot shows a web browser window displaying the Audacity website. The browser's address bar shows 'audacity.sourceforge.net'. The website features the Audacity logo (a pair of headphones with a sound wave) and a navigation menu with links for Home, About, Download, Help, Contact Us, Get Involved, and Donate. A search bar is located in the top right corner. The main content area includes a heading: 'Audacity® is free, open source, cross-platform software for recording and editing sounds.' Below this, it states 'Audacity is available for [Windows®](#), [Mac®](#), [GNU/Linux®](#); and other operating systems. Check our [feature list](#), [wiki](#), and [forum](#).' A prominent yellow box contains the text 'Download Audacity 2.0.6 for Windows 2000/XP/Vista/7/8'. Below this box are two more links: 'Other Audacity Downloads for Windows' and 'All Audacity Downloads'. To the right of the text is a small thumbnail image of the Audacity software interface. At the bottom of the page, there is a section titled 'September 29, 2014: Audacity 2.0.6 Released' followed by the text 'Audacity 2.0.6 replaces all previous versions.' and a heading for 'Improvements:'.

How to trap and record I use my computer

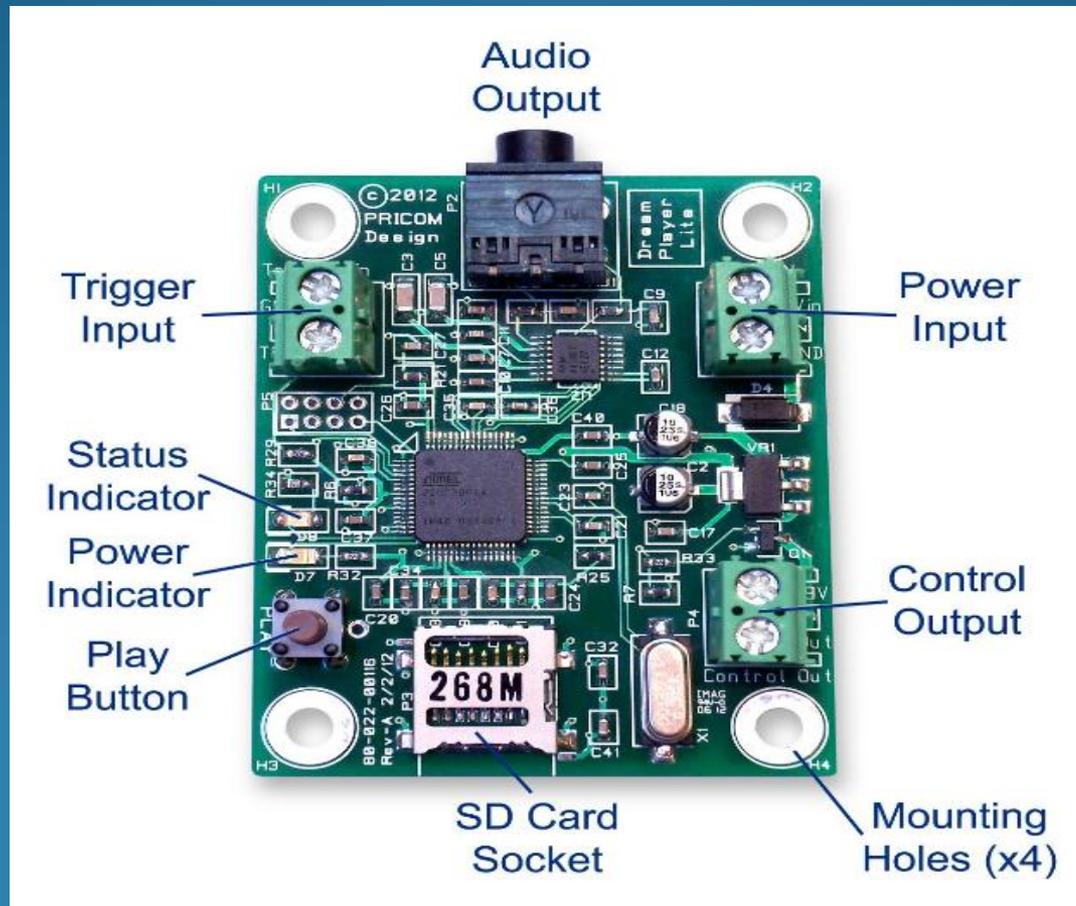

Replaying your recording

If you look closely at the ROM provided by ITTC, Dallee... you can't alter the recording on the sound card. There is one company, Pricom, that allows you to record your sound on micro SD cards and play them

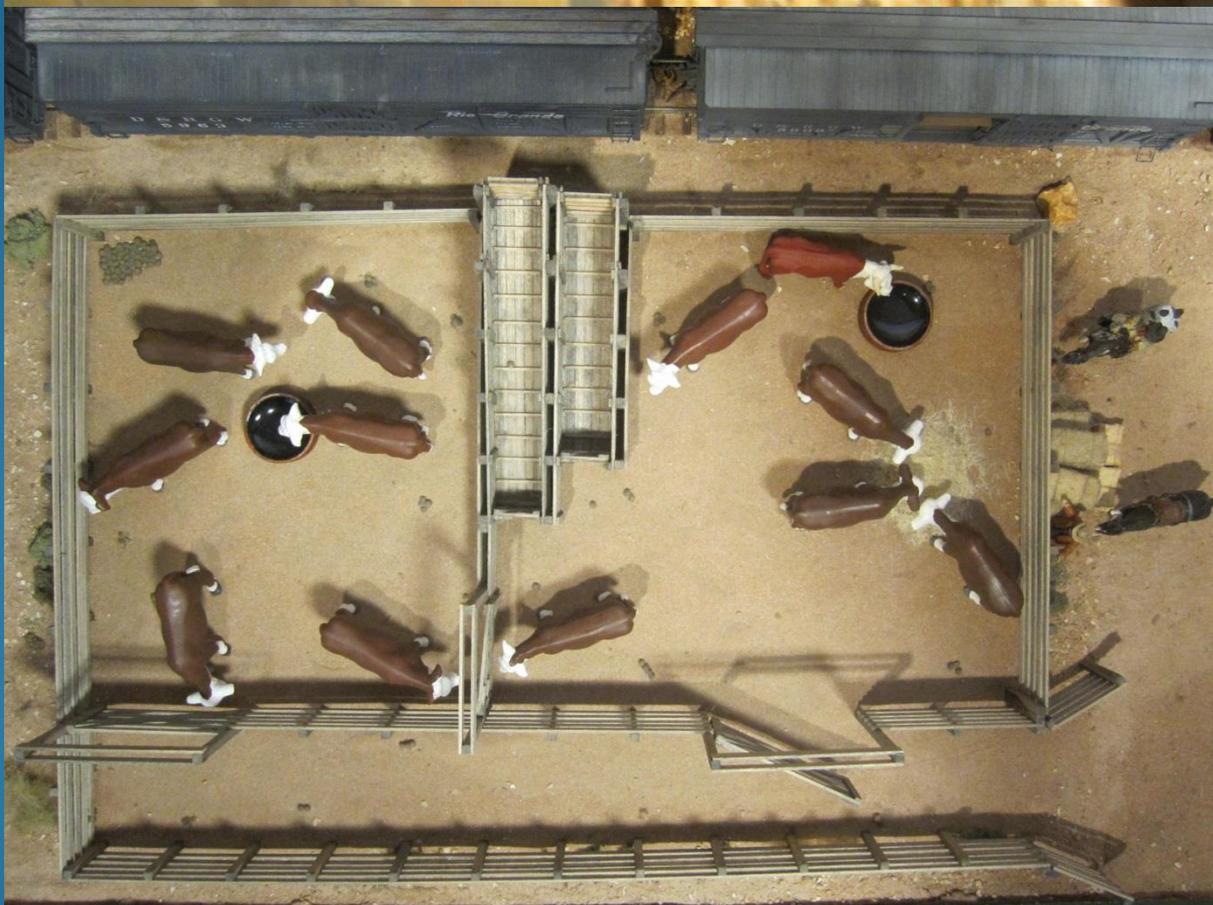

Replaying your recording

Pricom Dream Player LITE

Add sounds to these scenes

Railside Stockyard

Add sounds to these scenes

Engine house

Add sounds to these scenes

Blacksmith shop

Questions?

Possible Future Topics

How to download, install, setup, and/or use Audacity

How to capture audio from a record, tape, or other audio device

Planning your sound scene

Mixing and recording sounds using Audacity

Thank you!

If there are areas where you would like more information or another clinic, let Marc LaChey, Jerry Hoverson, or Larry Swigert know.
